Safal Infosoft Limited

ABOUT SAFAL INFOSOFT LIMITED.

Safal Infosoft Limited is an ISO 27001:2005 certified company established in 2009. We are a software development firm dedicated to providing innovative solutions tailored to the needs of Indian industries. Our goal is to enable businesses to grow rapidly, streamline operations, enhance user-friendliness, and minimize dependency on service providers.

In today's fast-paced and dynamic business environment, back-office operations, technical support, business services, and technology-driven marketing solutions are essential for success. At Safal Infosoft, we offer a comprehensive range of services that help our clients reduce operational costs, outsource support services at competitive rates, and focus on their core business functions.

With a team of skilled professionals, we are committed to delivering high-quality services within agreed timelines. We work closely with our clients to understand their business models, ensuring that we provide customized solutions that align with their unique needs and objectives.

WHAT IS AN OPENLOGIC SOFTWARE FRAMEWORK?

Our software solutions / ERP provides an innovative solution to handle enterprise level transactions with maintaining the highest standards of confidentiality. Built on the OpenLogic Framework, it features two distinct segments of source code to offer a high level of customization both during and after deployment.

Structure Code: The core source code includes the essential features of a Business Software. In essence, the structure engine serves as the foundation of the software, equipped with an API. This structure engine enables the rapid deployment of a complete Business Software solution without requiring any major modifications or customizations. It provides all basic functionalities necessary for enterprise level solutions, ensuring seamless implementation with minimal setup.

Logic Code: The Logic Engine is a unique innovation, introduced for the first time in any Business software. This specialized logic engine allows businesses to fully customize their software solutions. It enables the personalization of the user interface, the simplification of Business processes, the customization of modules, and much more tailored to the specific operational needs of your business. Importantly, the ownership of the customized logic engine remains with you at all times, offering complete control over the customization process.

ANNEXURE – B

IMPLEMENTATION & CUSTOMIZATION TERMS:

- ① Please note that whenever we are adding customization to any existing, tested, stabilized and proven integrated software of the level of ERP, we are adding uncertainty to already developed and tested software. Software Development is a very involved subject. It is not only time consuming to develop but it also takes a lot of time for testing and stabilization. Unless the added functionalities are thoroughly tested by the end customers/users for a prolonged period, testing all the permutations and Combinations with live data; the customization does not get stabilized.
- ② **Important pre-requisite:** It is imperative to create an in-house EDP/Systems department comprising of minimum of one senior executive and two programmers. From our past experience, it is found that wherever this point is strongly available the progress in implementation has been quick and qualitative. Similar to any other project the ERP implementation requires a full-time project coordinator who would interface with the project team we shall be creating at our development centre.
- ③ **Implementation Schedule:** The expected time mentioned above for Customization & Implementation are estimates, based on the experience with organizations. These may differ (may be less or more) & shall be decided after the System Requirement Study is completed & agreed upon.
- ④ Successful project designing, deployment, implementation and support strictly demand one dedicated project co-coordinator from your side, who can effectively interact with us and well aware of your organization business process and requirements.
- ⑤ Any queries assistance and support will be provided during office working hours only. (As above)
- ⑥ The "Vanilla Version" is generally the version that has no customization applied - it is the "regular", "ordinary" or "old" version.
- ⑦ Modification in any page, report, new page or new report development will be considered as Customization.
- ⑧ 2 Tokens will be consumed for any eInvoice generation, and 4-5 Tokens will be consumed for any eWay Bill generation.
- ⑨ Price validity of all the service & license charges (except API & Cloud Hosting charges) would be 12 months from the date of order.
- ⑩ **Actual charges to be reimbursed:** All Conveyance, Travelling, Lodging, Boarding, and Incidental cost are charged extra at actual for all the services (Like SRS / Training / Customization / Support etc.) offered by SIPL **outside Ahmedabad**. These expenses are to be reimbursed within one-week days of submission of the services.

Our Products

204+204A & 205+205 A, Shivalik Corporate Park, Opp. Ashwamegh Bunglows Part-I,
Satellite, Ahmedabad- 380015, Gujarat- India

ANNEXURE – C

YOU AGREE WITH FOLLOWING “OTHER TERMS & CONDITIONS”

- ① **Source Code:** The software license is being granted as an publish version only, technical source code licensed is not being granted.
- ② **IPRS (Intellectual Property Rights):** The Intellectual Property Rights of the Software shall always vest with SAFAL Infosoft Limited. including its successors and assigns. The Client shall not replicate or use the software for any commercial purpose, directly or indirectly, in whole or in part, that the deliverables or any material relating thereto except for the purposes laid down in this purchase order.
- ③ **Force Majeure Clause:** Should either party be prevented wholly or in part from fulfilling any of its obligations under the agreement for reasons of force majeure, the party claiming under this article / contract / agreement shall be entitled to such extension of time to fulfil such obligation as may be reasonable necessary in the circumstances. Force Majeure hereunder shall be defined as any of the following events War, Preparation if War, Blockade, Revolution, Insurrection Mobilization, Civil Commotion's, Riots, Strikes, Sabotages, Lockouts, Acts of God, Plague, Freight embargoes, Earthquakes, Tidal Waves, Typhoons, Storms, Fire, Explosion, Flood, Severe Labour dispute on the part of either party or its subcontractors on any conditions of similar nature beyond control of the parties hereto.
- ④ **Liabilities /Damages:** SIPL accept No liabilities or damages of any kind arising out of Use or non-use of products / services delivered by SIPL.
- ⑤ **Statutory Components:** “SAFAL™” incorporates various legal and statutory components such as GST, Sales Tax, Excise, PF, ESI, Export / Import Documents etc. These have been incorporated in the Software on “best effort and understanding basis”. While all necessary steps have been taken by SAFAL Infosoft Limited. to ensure that these are correct, legally SAFAL Infosoft Limited. does not guarantee or Warranty the correctness, accuracy, comprehensiveness, current ness or applicability on any or all such features of the software and advises the client to verify all such features to their satisfaction before usage of such features. SAFAL Infosoft Limited. does not accept any liabilities of any kind from the users or non-users or any third party on these features of “SAFAL”. Moreover, if there any changes in the law and due to these reasons if SAFAL software unable to provide same, in those circumstances its client's responsibility to contact the SAFAL and will make a way by the mutual understanding of the both the parties. And in these cases, SAFAL is not liable to any reimburse / refund of any fees / charges to the Client.
- ⑥ SIPL does not accept returns or provide refunds on purchases of licenses or services or accessories or software add-ons or yearly software up gradation.
- ⑦ **Non-Hiring:** The client will not hire, either directly or indirectly, any of SIPL's staff (who have worked on the projects or otherwise), during the Training & Support and for 2 years after the Training & Support is over, except when a written consent is given by SIPL to do so.
- ⑧ **Delay in Payment:** SIPL shall not be responsible for any delays on the execution of the Projects if the payments are delayed beyond 15 days of the due date of payment. SIPL reserve the right to stop the work in such a case, which will resume once the commercial issues are settled with the client.

- 10 **Limited Warranty:** During the Subscription Term, SAFAL warrants that the Products will operate in substantial conformance with the then-current SAFAL published Documentation under normal use. Notwithstanding the previous sentence, SAFAL does not warrant that: (a) Products will be free from defects; (b) Products will satisfy all of Subscriber's requirements; (c) Products will operate without interruption or error. SAFAL shall use reasonable efforts to remedy any significant Product non-conformance reported to SAFAL that SAFAL can reasonably identify and confirm. SAFAL or its representative will repair or replace any such nonconforming or defective Product. This paragraph sets forth Subscriber's sole and exclusive remedy and SAFAL's entire liability for any breach of warranty or other duty related to the Products. Any unauthorized Product modification, tampering with the Products, Product use inconsistent with the accompanying Documentation, or related breach of this Agreement shall void the aforementioned warranty. EXCEPT AS EXPLICITLY SET FORTH HEREIN AND TO THE EXTENT ALLOWED BY LAW, THERE ARE NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, NON- INFRINGEMENT, TITLE OR FITNESS FOR A PARTICULAR PURPOSE WITH RESPECT TO THE PRODUCTS. SAFAL DOES NOT WARRANT THAT THE SOFTWARE IS ERROR-FREE OR THAT OPERATION OF THE SOFTWARE WILL BE SECURE OR UNINTERRUPTED. SAFAL EXERCISES NO CONTROL OVER AND EXPRESSLY DISCLAIMS ANY LIABILITY ARISING OUT OF OR BASED UPON PRODUCTS THAT ARE BASED UPON OR CREATED THROUGH USE OF THE SOFTWARE
- 11 In case of machine fault at client's site or due clients machine failure SAFAL is not liable to repair or replace the client's machine and etc. SAFAL is only and only liable for its product.
- 12 The Client shall keep all information and other terms and conditions highly confidential in relation to this agreement / contract. And also in relation to the SAFAL's confidential and shall not divulge without the prior written permission / consent of the SAFAL.
- 13 In case of any dispute controversy or claim out of or related to the said contract / agreement which has not been mutually resolved by the parties in that case parties shall be determined and settled the dispute by the Arbitrator mutually appointed by the both the parties in accordance to the Arbitration and conciliation Act, 1996 and the venue will be at Ahmedabad.
