

MACHHI ANIKET

MECHANICAL DESIGN ENGINEER

+91 7984416505 | aniketmachhi0786@gmail.com | Gujarat, India | 04 October 2001

PROFESSIONAL SUMMARY

Results-driven Mechanical Design Engineer with 5+ years of progressive experience spanning design engineering, CNC part programming, and product development across reputed manufacturing organizations. Demonstrated expertise in 3D/2D CAD modeling, GD&T (ASME Y14.5), material selection, and Design for Manufacturing (DFM). Proven ability to deliver production-ready designs from concept to completion while collaborating cross-functionally to ensure performance, quality, and cost-effectiveness.

PROFESSIONAL EXPERIENCE

Part Design Engineer

Flexican Bellows & Hoses Private Limited | Gujarat, India

2023 – Present

Leads end-to-end design of mechanical parts and sub-assemblies from concept through production, ensuring quality, fit, and manufacturability.

- Designed complex mechanical parts and sub-assemblies using CATIA, SolidWorks, Creo, and NX.
- Created 3D models, detailed 2D drawings, and assembly layouts in compliance with ISO/ASME design standards.
- Applied GD&T (ASME Y14.5) to ensure functional fit, interchangeability, and manufacturability.
- Collaborated with manufacturing and quality teams to implement DFM/DFA principles, reducing production costs.
- Prepared Bills of Materials (BOMs), design reports, and complete engineering documentation packages.

CAD Engineer & CNC Machine Programmer

Originare Laser | Gujarat, India

2020 – 2023

Bridged engineering design and manufacturing by converting drawings into accurate CNC programs for multi-axis machining centers.

- Developed 2D and 3D CAD models of precision mechanical components using AutoCAD, SolidWorks, CATIA, and Creo.
- Prepared CNC part programs (G & M codes) for VMC, HMC, CNC Turning Centers, and multi-axis machines.
- Optimized toolpaths and machining strategies to improve cycle times and reduce material waste.
- Performed first-article inspection and iterative design refinement based on machining feedback.
- Maintained documentation of programs, setups, and quality records in line with production standards.

Design Engineer (Apprenticeship – Apprenticeship Act 1961)

Larsen & Toubro (L&T) | Gujarat, India

2018 – 2020

Gained industry-grade exposure to large-scale mechanical design processes within one of India's foremost engineering conglomerates.

- Designed and developed mechanical components and assemblies using AutoCAD, SolidWorks, and CATIA.
- Prepared 2D drawings, 3D models, GD&T callouts, and BOMs per ISO/ASME standards.
- Supported prototype testing, validation activities, and design iteration cycles.
- Assisted in preparation of engineering documentation and design review presentations.

TECHNICAL SKILLS

CAD Software

GD&T (ASME Y14.5)
