WORK EXPERIENCE

Sales Engineer | FASTLINE Technical Services LLC., Muscat, Oman | February 2022 – Present

- Lead technical sales for industrial mechanical products including valves, strainers, and piping components, supporting EPC, OEM, and oil & gas end-users.
- Review and manage RFQs/tenders from EPC contractors and consultants; prepare accurate and competitive techno-commercial proposals aligned with client specifications.
- Interpret P&IDs, GA drawings, pressure/flow specifications, and technical requirements to recommend suitable mechanical and piping solutions.
- Manage the full sales cycle—from lead qualification to client meetings, site visits, quotation submission, negotiation, and order finalization.
- Maintain a strong sales pipeline through CRM tracking, opportunity follow-up, and consistent engagement with key decision-makers.
- Act as a primary liaison between manufacturers and clients, ensuring timely technical clarifications, documentation submission, and project support.
- Build and strengthen long-term relationships with EPCs, oil & gas operators, industrial clients, and procurement teams to secure repeat business.
- Analyze vendor offers for compliance with PDO and other end-user standards, ensuring technical accuracy and commercial competitiveness.
- Collaborate with logistics and procurement teams to ensure timely delivery schedules and maintain

customer satisfaction.

- Develop new vendor partnerships to enhance product portfolio and support business growth in industrial and EPC segments.

HVAC Project Sales Engineer | YES YES Marketing, Kottakkal, Kerala, India | February 2020 – January 2022

- Assisted sales activities by identifying customer requirements, preparing technical offers, and providing detailed product information.
- Supported client meetings and site visits to clarify technical aspects and promote product solutions.
- Calculated heat loads and selected pumps and HVAC equipment for efficient performance.
- Coordinated with clients, suppliers, and contractors for timely procurement and delivery of materials.
- Prepared material lists and project requirements as per tender documents and project scope.
- Communicated with manufacturers to resolve technical queries and ensure product availability.
