PROFESSIONAL SUMMARY

As a mechanical engineering fresher, I am eager to apply my academic knowledge to real world challenges. I have gained hands-on experience in CAD, FEA, Ansys, Solid edge, Solid works, MathCAD and python programming. Passionate about problem solving and innovation, driven to design efficient and cutting-edge mechanical systems. Ready to contribute with strong analytical skills, Technical expertise and a mindset for continuous learning.

SKILLS

DesignTools: SolidEdge, Solidworks, Ansys
TechnicalExpertise:Finite Element Analysis (FEA), Buckling and Impact Analysis, CAD modeling and design, Simulation and numerical methods, Structural Mechanics
DataManagement:Data entry and verification, Record maintenance
Other: Mathcad, Python.

PROJECT

Master's thesis on Simulation of Fencing foil and it's mechanical properties Riga, Latvia Nov2024 – June2025

- Modeled a fencing foil sword using Solid works, focusing on realistic geometry and fencing standards.
- Conducted static and buckling analysis to evaluate structural integrity under axial and lateral loads.
- Used motion studies to Simulate Impact scenarios from side and front strikes.
- Analyzed material behavior (e.g., Spring Steel, Maraging Steel) considering Young's Modulus and Critical Buckling load.
- Interpreted FEA results to optimize design for strength, flexibility, and safety.

EMPLOYMENT HISTORY

Concentrix [Data Entry Specialist] July2024 – July2025
Riga, Latvia

- Entered and updated data in data bases and software systems.
- Verified data accuracy and corrected errors.
- Adhered to data privacy and security policies.

EDUCATION

Riga Technical University 2023–2025
Masters
CGPA:7.96

Bapuji Institute of Engineering and technology 2018-2022
Bachelors
CGPA: 7.50

Vaishnavi Chetana PU College 2016–2018
PUC
Marks: 83%

St Pauls HighSchool 2015–2016
SSLC
Marks: 86.24%

PERSONAL INFORMATION

Father'sName:Rafiulla|DOB:16-Aug-2000|Nationality:Indian

LANGUAGES

English, Kannada, Hindi, Arabic
