

SURYAKANT DIXIT

Production Manager | Workshop Manager | Mechanical & Welding Specialist

Dubai, UAE | +971-505421873

dinanathsuryakant@gmail.com | [linkedin.com/in/surya-dixit/](https://www.linkedin.com/in/surya-dixit/)

PROFILE SUMMARY

Highly experienced Production/Workshop Manager with 20+ years of international expertise across the UAE, Saudi Arabia, Kuwait, and India in mechanical fabrication, welding, QA/QC, and industrial project management. Adept at overseeing complex oilfield equipment manufacturing, structural steel fabrication, pressure vessels, piping, and compliance with international codes (API, ASME, AWS). Recognized for reducing defects, improving production flow, and ensuring seamless cross-departmental coordination. Possess strong leadership, vendor management, and team-building capabilities with a solid record of on-time project delivery under ISO-certified environments.

CORE COMPETENCIES

- **Production & Workshop Management:** Capacity planning, scheduling, manpower allocation, cost control, and quality assurance. Preparing reports weekly, monthly actual Vs planned.
- **Welding & Fabrication:** SMAW, GTAW, MIG/MAG, SAW processes; weld procedure development (WPS/PQR), welder qualifications, metallurgy.
- **QA/QC & Inspection:** NDT (RT, UT, MT, PT), weld visual inspection, pressure testing, compliance with API 510/570/653, ASME Sec. VIII Div.1, AWS D1.1.
- **Project Management:** Budgeting, timelines, scope definition, stakeholder coordination, risk management (supported by PMP-style training).
- **Technical Standards & Codes:** ASME B31.3, B31.8, Sec. V, Sec. IX, AWS D1.1, API 650, ISO 9001.
- **Software & Tools:** MS Office (Word, Excel), AutoCAD (2D, 3D), SAP (basic), digital measuring devices.
- **Leadership & Training:** Mentoring welders, fabricators, and technicians; conducting in-house training programs; leading safety and quality briefings.

PROFESSIONAL EXPERIENCE (OVERSEAS)

Al Raha Mechanical Equipment Company W.L.L. (May 2025- Present)

Fabrication Manager –Pressure Vessels, storage tanks, Piping, Structure & offshore and onshore Oilfield Equipment.

- **Fabrication Oversight:** Directed the fabrication of ADNOC greenfield & brownfield projects of critical oil & gas separation equipment—including storage tanks, acid tanks, Mud Tanks, pressure vessels, silos, piping systems, pipe spools, platforms, skids, ladders, and handrails—ensuring adherence to the highest quality standards across the Oil & Gas, Marine, Power, and Desalination sectors. Supervised both structural and pressure vessel welding activities. Successfully managed specialized fabrication processes such as hot tapping, inline service Welder Qualification Tests (WQT), and zero-flare deck fabrication, enhancing operational flexibility and environmental compliance.
- **Process Optimization:** Streamlined operations by managing manpower allocation, raw material planning, yard storage logistics, in-process quality checks, and FAT to ensure timely and efficient project delivery. Coordinated packaging and transportation of equipment to **ADNOC offshore islands**. Acted as a liaison between project management, QA/QC, planning, storage, and administration teams for seamless workflow.
- **Inspection & Testing:** Executed full-scope quality assurance, including fit-up inspections, WPS (Welding Procedure Specification) implementation, welder qualification tests, equipment refurbishment inspections and surveys, thickness verification, and witnessing of NDT activities—all in compliance with ASME and ADNOC standards.
- **Documentation & Audits:** Acted as a liaison between project management, QA/QC, planning, storage, and administration teams for seamless workflow. Developed EPC procedures, participated in internal ISO audits, and supported external vendor and supplier audits to ensure full regulatory and client compliance.

Flow Test Equipment, Dubai (Feb 2019 – Apr 2025)

Workshop Manager – Piping, Structure & Oilfield Equipment

- **Production Management:** Oversee fabrication of skids, piping packages, frames, trailer-mounted units, and wellhead products (2K 1440 psi separators, choke manifolds, sand separators, etc.).
- **Quality & Compliance:** Implement stage-wise inspection in line with approved ITP and weld plans. Manage consumables, storage, calibration schedules, and final inspection coordination.
- **Team Leadership:** Direct and train multidisciplinary teams (welders, fabricators, technicians). Plan workload and ensure on-time project completion.
- **Cross-Functional Coordination:** Liaise with purchasing, QA/QC, and design teams for material procurement, technical clarifications, and audits (ISO, client audits).
- **HSE & ISO Standards:** Enforce strict adherence to safety protocols and ISO 9001 requirements. Facilitate internal and external audits.

Magnum Technology Center, Dubai (Jul 2012 – Jan 2019)

Fabrication Supervisor – Piping, Structure & Vessel Fabrication

- **Fabrication Oversight:** Managed manufacturing of oil & gas separation equipment (well test trailer package, surge tanks, heat exchangers, manifolds), including structural and pressure vessel welding.
- **Process Optimization:** Coordinated manpower scheduling, raw material procurement, stage-wise inspection, and final testing to meet stringent deadlines.
- **Inspection & Testing:** Executed fit-up checks, visual weld inspections, thickness measurements, and NDT witnessing per ASME standards.
- **Documentation & Audits:** Prepared QA/QC documentation, participated in internal ISO audits, and guided vendor/supplier audits.

Kharafi National, Kuwait (Dec 2011 – Jul 2012)

QC Inspector – Piping & Structural Fabrication

- **Structural Inspection:** Conducted fit-up and welding inspections for pipe racks, modules, and skids for the Laggan Gas Plant Project.
- **NDT Monitoring:** Witnessed UT, MT, PT processes; ensured compliance with project specifications.
- **Piping Projects:** Performed final welding visual checks and dimension inspections for the “Dilem” piping project.

Al Yusr Townsend & Bottum Co. Ltd., Saudi Arabia (Dec 2007 – Oct 2011)

QA/QC Engineer – Piping Fabrication & Installation

- **Quality Coordination:** Prepared ITPs, QA/QC plans, and inspection reports. Liaised with clients (Chevron, SABIC, WorleyParsons) for project-specific quality requirements.
- **Audits & Compliance:** Led internal/external quality audits for engineering, construction, and inspection teams.
- **Material & Weld Testing:** Reviewed WPS, PQR, welder qualifications; witnessed mechanical testing of weld specimens.
- **Equipment Inspection:** Conducted internal/external inspections of vessels, heat exchangers, and storage tanks; oversaw rotating/static equipment installation.
- **Pressure Testing:** Supervised hydro, pneumatic, and pad pressure tests.

PROFESSIONAL EXPERIENCE (INDIA)

Worldwide Oilfield & Machines Pvt. Ltd., Pune, India (Aug 2005 – Nov 2007)

Welding Engineer (Corrosion-Resistant Welding & Heat Treatment)

- **Welding Operations:** Prepared WPS, carried out welder qualifications, and mitigated defects in corrosion-resistant alloys (SS316, 410, Inconel 625).
- **Valve Fabrication:** Oversaw welding for gate valves, wellheads, and BOPs per API 6D. Managed post-weld heat treatment processes.

Raj Power Parts & Engineering Pvt. Ltd., Pune, India (Feb 2004 – Aug 2005)

Junior Production Engineer – Sheet Metal & Structural Fabrication

- **Production Planning:** Calculated production loads, managed manpower, and ensured timely delivery of sheet metal products (ducts, skids, airtight containers).
- **Weld Inspections:** Conducted visual checks and prepared quality reports for structural welds.

Walchandnagar Industries Ltd. (July 2001 – Jan 2004)

Production Supervisor (Special Gigs fabrication and gauges calibrations)

- Worked in fabrication of sugar machinery, boilers, heat exchangers, gear systems, and satellite parts.
- Performed dimensional checks, weld visual inspections, and calibration of measuring instruments under ISO standards.

EDUCATION

- **MBA (Project Management), 2023.** Swiss College of Management (European Qualification Framework)
- **Diploma (Project Management), 2023.** Learners University College (European Qualification Framework)
- **Diploma (Mechanical Engineering), 2001.** Government Polytechnic, Pune (Board of Technical Education, Mumbai)

TRAININGS & SEMINARS

- Internal Auditor Certification (ISO 9001:2000)
- API 510 Training Course
- Quality Management & ISO 9001 Awareness
