ABOUT ME

Results-oriented Mechanical Engineer with a Bachelor's degree in Mechanical Engineering and 4+ years of experience in the oil and gas, manufacturing, and project engineering sectors. Currently serving as an Oil and Gas Mechanical Project Engineer with 2 years of experience in daily progress reporting, material requisition management, document control, and project execution. Certified as a Permit Holder, Permit Applicant, and Fire Watcher, with successful completion of examinations at the Oman Refinery. I hold an OPAL card, authorizing work in the Oman Refinery.

Previously worked as a Sales Engineer with experience in solar PV solutions, skilled in understanding customer needs, conducting site assessments, and providing accurate technical proposals. I have strong communication and client-handling abilities, and I consistently support customers through the full sales cycle. I am focused on delivering efficient solar solutions and contributing to clean energy growth.

WORK EXPERIENCE

Majees Technical Services [04/02 /2024 – Current] - Junior Project Engineer- Oman

- Project Support and Coordination
- Assist senior engineers and project managers in planning and executing oil and gas projects.
- Making Daily Progress Reports.
