

Shamim Akhtar
Plant Manager
Mobile: +971-551916740, Tel. Mobile: +971-55688 6857
Email: shamim_akhtar1@hotmail.com
Location: Dubai Sports City, Dubai, UAE
Holding UAE Golden Visa

Professional Summary:

- Dynamic Facility & Plant Manager with over **31 years of experience** in chemical manufacturing, rubber, and industrial sectors, including **6+ years in senior leadership roles** within the UAE chemical industry. Proven track record in **plant operations, facilities management, infrastructure upgrades, preventive maintenance, sustainability initiatives, and cost optimization**. Adept at leading cross-functional teams, implementing **ISO, HSE, and FM Global standards**, and driving **operational excellence** in compliance with regulatory requirements. Skilled in **strategic planning, energy efficiency, and continuous improvement** with strong stakeholder management capabilities.
- Senior management personnel, managing plant operations, in AL MUQARRAM INDUSTRY, a **Soudal Chemicals - Belgium owned company in UAE, producing Silicone Sealant, Acrylic sealant, Adhesives, Printing, Specialty Tapes, PU Foam, Spray paint, managing** a workforce of over 200 personnel.
- Installed Injection molding machine of 350T/180T capacity to produce 1.1 million of HDPE empty cartridges, Plungers and Nozzles.
- Oversaw new project development, production, maintenance, procurement of machinery and equipment, installation and commissioning of new machineries, ensuring maintain world class quality, continuous cost reduction, process improvement, process optimization and energy savings.
- Knowledgeable of TS16949 quality system, Ensuring compliance of ISO 9001,14001 and 45001 within the organization.
- Worked with FM Global for implementation of Fire Alarm safety and safety requirement in flammable chemical storage and handling compliance.
- Visiting HQ, Belgium to attend IOM (International Operation Meet) annually.

Year	Degree / Certification	University / Institute	Remarks
1991	Bachelors in Mechanical Engineering, Industrial Engineering as selective subject	AMU Aligarh, UP, India	First Div. Honors, 2nd Position
2005	Asia works Basic Leadership Training	ASIAWORKS, Singapore	Basic Training
2008	Lean Production System, Toyota	Asia Productivity Organization	Malaysia Productivity Corporation

Area of Expertise:

- | | |
|--|---|
| ▪ Plant Operations Management | ▪ (ISO 9001, 14001, 45001) Compliance |
| ▪ Safety, Health & Environment (EHS) | ▪ ERP / SAP / Power BI Reporting |
| ▪ Lean Manufacturing / Six Sigma / Kaizen / 5S | ▪ Inventory & Supply Chain Planning |
| ▪ Preventive & Predictive Maintenance (TPM/PM) | ▪ Sustainability & Energy Efficiency Initiatives |
| ▪ HSE Compliance & Waste Management system | ▪ Leadership & Team Development |
| ▪ Process Optimization & Cost Control | ▪ Budgeting & Financial Management (CAPEX & OPEX) |
| ▪ Risk Management / FM Global Insurance compliance | ▪ Contractor & Supplier Management |

Company/Organization	Industry	Location	Years	Designation
Al Muqarram Industry LLC, Acquired by Soudal Chemicals, Belgium	Chemical Industry	Sharjah	6,11	Plant Manager
Idealism Industry FZE	Food Industry	Ras Al Khaimah	2,10	Plant Manager
Ocean Rubber Industry	Rubber Industry	Sharjah	3,10	Production Manager
International Rubber Industry	Rubber Industry	Dubai	1,4	Production Manager
Tong Yong Rubber (M) Sdn Bhd	Rubber Industry	Malaysia	6,10	HOD – Prod, Engineering & Dev.
Srikota Rubber Mfg Sdn Bhd	Rubber Industry	Malaysia	6,2	Asst. Factory Manager
Seginiaga Rubber Industries Sdn Bhd	Rubber Industry	Malaysia	1,0	Technical Support
Anand Lecuyer Polymers Ltd & Anand Saiag Ltd	Rubber Industry	India	3,8	Senior Engineer – Tool Room

Detailed Experience:			
Al Muqarram Industry llc – Sharjah, Acquired by Soudal Chemicals – Belgium.	Plant Manager	Dec 2018 – Nov 2025	6 years 11 months

Overseeing manufacturing operations, mixing sealant, cartridge printing, sealant filling, empty cartridge manufacturing, tape production, coating of BOPP/ PE tapes, quality, maintenance, warehousing and working on government legal compliance on civil defense requirements.

- Lead operations for a chemical manufacturing facility producing **sealants, adhesives, specialty tapes, PU foam, spray paint, and car care products** with a workforce of 150+.
- Directed **EHS programs** ensuring compliance with ISO & HSE standards and FM Global safety requirements.
- Oversaw **production planning, inventory management**, and alignment with supply chain demand.
- Implemented **preventive maintenance programs** and optimized spare parts management to reduce downtime.
- Spearheaded facility expansion projects, including **PU foam production line** and **cartridge/nozzle manufacturing unit**.
- Reduced **energy consumption and operational costs** through lean initiatives and sustainability projects.
- Reduced energy consumption and operational costs through **lean manufacturing and energy-saving measures**.
- Managed annual **CAPEX/OPEX budgets** and cost-reduction strategies.
- Represented UAE operations at **International Operations Meetings in Belgium**.
- Established waste management procedures are followed reducing environmental impact.
- Reviewing utilities consumption and strive to minimize costs. Monitoring operations and trigger corrective actions.
- Address employees' issues or grievances and administer collective bargaining agreements.
- Implemented EHS policies and ensuring that facilities meet compliance standards and government regulations.

Idealism Industry FZE- Ras Al Khaimah	Plant Manager	Feb 2016 – Nov 2018	2 Years 10 months
---------------------------------------	---------------	---------------------	-------------------

- **Commissioned new charcoal briquettes production line e.g. mixing, hydraulic pressing, drying, and automatic packing together with the maintenance team.**
- Directed end-to-end plant operations for **charcoal briquettes production** (mixing, pressing, drying, and packing).
- Implemented **cost-saving initiatives** in raw material utilization and energy consumption.
- Commissioned new production lines and developed **SOPs** for operational efficiency.
- Managed CAPEX/OPEX budgets, procurement, and facility maintenance.
- **Sourced and finalized quality charcoal powder raw materials from North Sulawesi, Indonesia.**
- Developed and implemented all the relevant processing documents, SOP required for the efficient factory operation.
- Directed full plant operations for food production, implementing **continuous improvement** initiatives.
- Implemented **cost-saving initiatives** in raw material use and energy management.

Ocean Rubber Factory LLC - Sharjah	Plant Manager	Feb 2016 – Nov 2018	2 Years 10 months
------------------------------------	---------------	---------------------	-------------------

- Oversaw rubber seals extrusion, PVC extrusion, PVC Injection molding, compression molding, injection molding and transfer molding producing Marine rubber system, Architectural rubber seals, Pipe seals, rubber products for Building protection system and other industrial and food grade rubber products (Architectural seals, marine rubber fender system, pipe seals, building protection rubber).
- Oversaw manufacturing of **marine rubber fender systems, architectural seals, pipe seals, and industrial rubber products**.
- Oversaw facility operations, new line commissioning, utilities, and maintenance.
- Managed production efficiency for marine and architectural rubber systems while reducing downtime.
- Led ERP-based **production planning and cost estimation** for new product lines.
- **Developed and produced different pipe seals through extrusion process and injection molding process.**

International Rubber Company LLC- Dubai	Production Manager	Oct 2010 – Feb 2012	1 Year 4 months
---	--------------------	---------------------	-----------------

- Scores of KAIZEN projects done to reduce WIP/rejection and increased production tonnage. Maximum production achieved in IRC history was 190 tons of rubber in 2012.
- **Implemented Film Joint technology from Norway, successfully production run.**
- Achieved record production of **190 tons of rubber** through process optimization and KAIZEN projects.

Tong Yong Rubber (M) Sdn Bhd - Malaysia	HOD – Prod. Engg. & Dev-	Jan 2004 – Oct 2010	6 Years 10 months
- Prepared APQP Timing plan and its elements (APQP, PPAP, FMEA, control plan, MSA and SPC) as per customer deadlines for the development of rubber weather strips for new car models for Proton, Daihatsu, Nissan, Toyota, and Hyundai in Malaysia. - Developed OEM rubber seals for new car models for Proton, Daihatsu, Nissan, Toyota, and Hyundai in Malaysia. - Overseeing overall production activities, e.g. Compound mixing, Extrusion Die and Mold fabrication, extrusion of rubber weather strips, Molding, Coating, Sealant Operation, TPO extrusion, PVC Extrusion, Trimming, Packing and logistics. Trained on LPS (Lean Production System), been LPS Team Leader and implemented various LPS KAIZEN projects with MAJAICO, JETRO through Malaysian NPC program.			

Srikota Rubber Mfg. Sdn Bhd - Malaysia	Asst. Factory Manager	Nov 1997- Dec 2003	6 Years 2 months
Commissioned RCM extrusion line for EPDM solid and EPDM sponge rubber profiles. - Achieved ISO-9002 certification in the year of 2000 as Management Representative. Developed EPDM solid and sponge automotive rubber seals for various OEM car models in Malaysia. Commissioned various rubber processing machineries such as Metal Pre bending Machine, Post forming, Machine, Accumulator and Sealant Machine and developed various co-extruded rubber profiles.			

Seginiaga Rubber Industries Sdn Bhd - Malaysia	Technical Support	Apr 1996 - Apr 1997	1 Year 0 Month
- Responsible for the factory manufacturing operation (mixing, extrusion, molding, trimming, packing and delivery to the customer on time), quality and maintenance departments. - Established relation between the Extrusion die design and compound swelling factor for the rubber profiles. - Increased extrusion efficiency of various rubber products working together with compounding and extrusion team.			

Anand Lecuyer Polymers Ltd - India	Senior Engineer	July 1992 - March 1996	3 Years 8 Months
- Worked as senior engineer in Tool room responsible for extrusion dies and transfer, compression molds for all the Indian OEM rubber seals. Fabricating all supporting tooling e.g. cutting jigs, punching tools for metal strip for co-extrusion dies. - Developed Flocked channel rubber seals for Maruti Car and European cars. I was the first to develop the REM rubber seals for automotive, building profiles for Middle East, Iran, region in 1993.			

Operational competencies:

- End-to-End Plant Leadership** – Production, utilities, warehouse, logistics, and engineering.
- Continuous Improvement** – Process efficiency, waste reduction, energy savings, and productivity enhancement.
- Cross-Functional Collaboration** – Aligning operations with supply chain, finance, quality, and R&D.
- Operational Scaling** – Facility expansion, automation, and workflow optimization.
- Compliance & Standards** – ISO 9001, 14001, 4500 and local civil defense regulations.
- Crisis & Risk Management** – Hazardous chemical handling, fire safety compliance, and contingency planning.

Others – Personal Information

- Nationality: Indian
- Sex: Male
- Marital Status: Married
- Driving License: UAE Valid Driving License
- Fluent in English, Hindi, Urdu and Bahasa Malaysia and Bahasa Indonesia.
- Strong Interpersonal and active leadership skills.
- Computer Literate-MS Word, Excel and Power point. ERP / SAP/ Power Bi
- Business trips to various countries e.g. Japan (Daihatsu Motor Co.), Taiwan (Toyota Motor Co - Joint Venture with- Chong Kwang Rubber, Taiwan), Philippines (Titan Rubber Industrial Mfg. Corp. Valenzuela), Singapore, Thailand (TTCAP), Indonesia (TMMIN), Shanghai-China, Bahrain, Oman, Netherland, Germany and Indonesia (Sumatra, Java, Sulawesi and Kalimantan) for procuring and approving quality of coconut shell powder.
- Official visit to Tramico, France, market leader in pre compressed foam tapes in construction sector.
