

TANZIM SARWAR
MECHANICAL ENGINEER
tsarwar2004u@gmail.com
tanzimsarwar@ymail.com
+79827791970
Office. +79244754486

*A Bachelor in Technology (Mechanical Engg.) in as lead QA/QC Engineer, welding piping, Tank, Furnace, boilers, preparation of ITP, PQR, WPS, Risk management & Risk analysis, test package, hydrotest, Reinstatement, painting, insulation; with over **Thirteen. Five (14.5)** year of working experience in construction of Gas Process plant, ammonia recovery plant, and ECU Refinery, & Petrochemical industry, Hydrometallurgical processing plant, in India and Abroad (India, Qatar & Russia).*

Familiar with Following Codes, Standards & Specifications:

- ASME -SEC-II, SEC-V, SEC- VIII, SEC- IX
- ANSI/ASME -B31.1, B31.3, B31.4, B31.8
- API - 1104, 620, 650
- ASTM -A105, A106, A304, A370, A340, E94, E142, A388 Etc.
- GOST-32569-2013, USSR state Standard-6996, GOST 31385-2016 (Russian standard)
- GOST -31385-2016, SP 48.13330.2019, USSR state Standard
- GOST-58031-2017, GOST-31347-2017, GOST-5264-80
- SP—40-102-2000: SNIP 3.05.04-85, USSR state Standard
- GOST-31347-2107, GOST-5264-80.

PROFESSIONAL EXPERIENCE

Company: Renaissance heavy industries Pvt. Ltd.

Designation: Lead QA/QC engineer

Project: GPP Project.

Location: Leningrad Region, Kingisepp District, Ust-Luga.

Client: Ruschemalliance.

Duration: March 2025 TO till Now

Company: Renaissance heavy industries Pvt. Ltd.

Designation: Lead QA/QC engineer

Project: MINING & METALLURGICAL PLANT (GMK) PROJECT.

Location: CHITA, UDOKAN -Russia

Client: UDOKANSKI/OUTOTEC.

Duration: July 2022 TO Feb 2025

Company: Renaissance heavy industries Pvt. Ltd.

Designation: Lead QA/QC engineer

Project: Amur Gas Process Plant

Location: Amur, svobodny-Russia

Client: Tecnimont.Ru

Duration: May 2019 TO till July 2022.

Company: Renaissance heavy industries Pvt. Ltd.

Designation: QA/QC engineer

Project: Ethaline cracker unit (ECU)

Location: ZapSib-2 (Sibur) Tobolsk , Russia

Client: Linde engineering pvt.ltd

Duration: May 2017 TO may 2019.

Company: Renaissance heavy industries Pvt. Ltd.

Designation: QA/QC Inspector

Project: Russia phosagro Ammonia gas plant – (RPA).

Location: Cherepovets -Vologda – Russia

Client: Mitsubishi Heavy Industries (MHI)

Duration: Sep-2015 to 2017 TO April -2017.

Company: NASEER S.AL-HAJRI CO.LTD.

Designation: Piping & Welding Inspector

Project: Barzan onshore project

Location: Qatar – UAE

Client: Japan Gas Corporation (JGC)

Duration: sep 2014 TO july 2015.

Company: Offshore Infrastructures Ltd.

Designation: welding Engineer

Project: Poly propylene /Poly ethaline UNIT

Location: Bharuch, Gujrat ONGC Ltd. (ONGC). EIL INDIA

Client: Tecnimont ICB Ltd

Duration: Jun 2011 TO Dec 2013.

CORE COMPETENCIES/AREA OF INTEREST/SKILL SET

Lead QA/QC Engineer.

- Walk-down inspection report control as per client satisfaction.
- Weekly operation plans of welding control UG and AG.
- Risk analysis for Mechanical Risk Management, Risk Identification, Risk Impacts, Risk Responses, Taken Risk Responses after Risk Identification
- To ensure that all materials delivered to site are inspected and conform to Approved Submittals.
- Ensuring that all Test Reports are verified to meet the Contract requirements. Issuance of Audit Non-conformances and monitor / review corrective action implementation Annual Audit Planning and execution of internal audits.
- Preparation and submission of periodical Quality performance reports to Top Management
- Follow- up and close out of Customer complaints/NCRs and reporting NC Status to top management on periodical basis.
- Co-ordination for Certification body audits and Customer / Consultant / Corporate Audits
- Controlling all monitoring and measurement devices / equipment
- Establishment and implementation Quality Trainings to improve QMS awareness / competency.
- Review vendor documents and inspection / lab reports.

In the field of piping inspection

- Performing visual inspection of piping installation including:

- Review Plan Diagram, P&ID, Isometric Drawing and Weld Map Drawing.
- Verifying piping material identity (pipe, valves and fittings) and its conformance to the installation drawings.
- Inspect all installed support according to support detail drawing.
- Verifying that welding inspection has been performed and joints have been released.
- In-process surveillance to verify compliance with specified piping erection procedure including flange alignments, torqueing, cleanliness etc.
- Performing piping walk down (line walk) inspection and completing punch lists. Verifying that punch list items have been dealt with in accordance with the contractual arrangements.
- Reviewing and verifying completeness of piping test packages (hydro or pneumatic) prior to testing.
- Reviewing welding summary and NDT report.
- Witnessing final piping (hydro, pneumatic, service & visual) tests.
- Preparation of documents required for inspection like RFI, pressure test report, cleaning report, bolt torque & re-instatement report, according to the ITP, applicable codes and standards.
- Completing and endorsing all inspection records from initial inspection till final acceptance of the piping systems.
- Maintaining interface with the Client to ensure that all contractual and code requirements are met as far as the inspection scope is concerned.

In the field of Welding Inspection

- Conducting the welding procedure qualification & Welder performance qualification tests for different kind of welds.
- Monitoring stage wise before, during and after welding jobs including pre-heating, post heating & PWHT (post weld heat treatment) stages.
- Visual inspection of all type of weld.
- Undertaking the complete preparation & review of QCP, ITP, WPS and PQR.
- To supervise and participates in non-destructive testing of equipment and piping, including review of preliminary interpretations carried out by subordinates.
- Establishing welding sequences to avoid distortion; executing periodical calibration for welding equipment.
- To advise on repair techniques, materials selection, welding procedures, inspection and testing requirements.
- Preparing welding documents viz. Welding Procedure specifications (WPS), Procedure Qualification Records (PQR), Welder Performance Qualification (WPQ) Records, Welder Continuity Records, Weld Maps, NDT Report, DWR & Welding Summary.

In the field of Piping/Tank Work

- Supervising the fabrication, erection, quality, inspection and testing of AG/UG process piping of various classes and grades; studying and executing isometrics.
- Reviewing P&ID's, Plot Plan & ISO drawings, Weld Map Drawing, layouts, diagrams, technical specifications, cost estimates for erection & commission of plant.
- Steering all other Piping works pertaining to Spool Erection, Line Supporting, ISO Clearance, Hydro Testing / Box up and System Clearance.
- All site Tank fabrication & site installation work as per ITP.
- Spherical Tanks.
- Storage Tanks.
- Cylindrical Tank, Atmospherically Tank
- Preparing material and work estimations, checklists, balance works system conformity to GA, P&ID, ISO and support standards.
- Monitoring and advising the Contractor / Sub-contractors on the control of manpower, construction equipment and material to ensure meeting of the schedule.

- **Coordination**

- ✍ Coordinating with Certifying Authority, Third Party Inspector, Client, Job Sharing personnel and subcontractor assuring conformity to project specifications.
- ✍ Interacting with company representatives and ensuring product conformity & stage release for each activity denoted within the Project Quality Plan / I.T.P.

EDUCATION:

- **BACHELOR OF TECHNOLOGY IN-MECHANICAL ENGINEER: From (JNTU) HYD, INDIA (2011).**
- **MASTER BUSINESS ADMINISTRATION IN-Project Managements (SMU) HYD INDIA.**

SOFT SKILLS & COMPUTER KNOWLEDGE

- AutoCAD : 2010 (2D drafting & 3D Modeling)
- Solid work : 2008
- Operating Systems : Windows XP\Vista \Windows7
- Application : MS Office
- CATIA

TECHNICAL / PROFESSIONAL TRAINING & CERTIFICATIONS

- NDT level-II (RT, UT, PT, MPT)
- personnel (ASNT-TC-1A-2006) Magnetic particle testing level-II
- personnel (ASNT-TC-1A-2006) Radiographic testing personnel level-II
- personnel (ASNT-TC-1A-2006) Ultrasonic testing personnel level-II
- personnel (ASNT-TC-1A-2006) Penetrate testing personnel level-II
- personnel (ASNT-TC-1A-2006) Visual testing personnel level-II
- QA/QC-welding certificate of proficiency
- QA/QC-piping certificate of proficiency
- NAKS level-II certificate No= (ЮР-ЭТАИ- II-01224). Russian federation certificate.
- VT (ВК) Visual testing – Russian federation certificate
- **Completed Post-Graduate diploma in “Process Piping Engineering” course from IPEBS, Hyderabad AP INDIA-**
- Preparation of G.A Drawings and Isometrics based on P&ID and plant layout.
- Pipe support and Rack design, Expansion loop design.
- Piping Material Selection/Specification/Valve Data Sheets.
- Pressure design of Process Piping and Component as per ASME B 31.3 [Straight Pipe, Flanges, Elbows and Miter bends, Reinforced branch connections, Blanks, Blind flanges, Expansion joints].
- Hydraulic design of Liquid Piping and Pipelines (Pipe sizing, Pump head & power calculations)

PERSONAL DETAILS

- Name : Tanzim Sarwar
- Date of Birth : 09 sep 1989
- Marital Status : Married
- Permanent Add : samastipur,bihar -(India)
- Passport : W2386259, valid until year 2032.
- Expected Salary - : Negotiable + permanent job/contract base
- Languages Known : English, Hindi, Russian (good), turkeys(average)

Declaration:

I hereby declare that the above-mentioned details are true to the extent of my knowledge.
Date: (TANZIM SARWAR)
